

Education Aims and Objectives

Our mission is to serve the global creative and business communities through our foundry, workshops, artists' studios and education programmes.

Our educational aims are to:

- provide artists with excellent teaching and training, informed by research, practical application and conceptual understanding for effective learning
- have a recognised reputation nationally and internationally for high quality programmes of study
- engage more people in the arts by providing a wide range of educational opportunities
- support the retention of creative graduates within the area
- actively contribute to the intellectual, cultural, social and economic life of our local and wider communities
- work with schools, universities, business and the public to offer tailored flexible courses
- maintain an identity based on academic and professional enquiry
- promote and develop professional practice
